SKILLS

Python
Pandas, Numpy, Scrapy

Machine Learning
Scikit Learn, TensorFlow, PyTorch

Databases
PostgreSQL, ElasticSearch, MongoDB, Neo4j

SQL

Analytics
Python, Tableau

SOFT SKILLS

Problem Solver

Analytical Thinker

Team player

Adaptable

Stress resilient

CERTIFICATIONS

ECPE
University of Michigan

Basic Principles of Digital Marketing
Google Workshop

EDUCATION

NCSR Demokritos
(October 2021 - Present)

🔗 https://msc-data-science.iit.demokritos.gr/

Machine Learning, Big Data Management, Data Mining, Visualization

University of Peloponnese
(October 2016 - September 2021)

Bachelor, Informatics and Telecommunications

7/10

PROJECTS

Drug to Drug Interaction Prediction Graph
(January 2023 - Present)

Msc Thesis

Predicts possible interactions between drugs used in Lung Cancer disease using Machine Learning.

Medical Image Classification
(May 2022 - July 2022)

Using Chest X-Ray images, our models can classify if the person has **Pneumonia**. For this project we used:

- CCN
- Transfer Learning
